Kate loves queso, her family, technology, experiencing the world through her daughter's eyes, and all things organization.

Kate Bonilla is organized, logical, and empathetic. Kate loves learning new technology and using it to work smarter not harder! We asked Kate a few questions to get to know her better, and here is what she had to share.

#### **If you could do another job for just one day, what would it be?**

A doctor! Obviously, as an accountant, I like puzzles. I think being a doctor would be a fun challenge as far as diagnosing patients, but I chose the route of accountant as it is a little cleaner!

#### **What is one thing you cannot resist?**

Queso. I don't think there is a single meal that doesn't pair well with the right cheese dip.

#### **What would you most like to tell yourself at age 13?**

Trust yourself. I think that in life we all have an internal compass that will guide us. The times in life that I have made the biggest mistakes are when I went against what my heart was telling me.

#### **Where is the best place you have traveled?**

Puerto Rico. My husband, Jose, is Puerto Rican and getting to see where he grew up and learning the culture of the island was just fascinating. Plus, the food was absolutely amazing, and the scenery was incredible!

#### **What do you like best about working with Dillon Business Advisors?**

The team is my favorite thing by far. Marcus and Rachel have been discerning about the people they choose to join the team. This has made for an incredible group of people who work very hard, support each other, and also know when to pause and prioritize family.
