

Dental Industry

We handle your financials so you can focus on what's important—**creating beautiful smiles.**

What's included in our financial services?

Hand over your complex, time-consuming tax and accounting work to our firm. Free yourself to do what you do best—run a successful practice!

When you work with Dillon Business Advisors, you get a team of accounting experts working for you to:

- Pay bills
- Balance checkbooks
- Process payroll and payroll tax returns
- Prepare tax returns
- Produce W-2's
- Support you with year-round insight into your financial status and develop a sound tax program to mitigate your tax burden.

Even better, because we offer financial plans at an affordable fixed monthly fee, you can easily budget your financial costs for the year.

For the dental industry

We offer extended value to your practice because we truly understand the challenges you face. Based on our experience serving the dental niche—including dentists, orthodontists, oral surgeons and periodontists—we support you with the industry-specific business expertise you require.

Get growing with Dillon Business Advisors

You're supported via our modern online platform—offering the convenience of real-time interaction with our firm and 24/7 access to your data. We keep you connected with our team, allowing us to provide year-round advisory services that support your ongoing growth and profitability.

The Value of Dillon Business Advisors and Our Industry Expertise

Dillon Business Advisors provides you with the peace of mind that you have a team of experts handling your accounting tasks. And with our experience serving dental niche clients, we are intimately familiar with your day-to-day operations and overhead structure, billing routines, staffing requirements, appropriate tax deductions, and much more. Consider all we can do for you:

Process bills fast and easy.

All processing is performed online, enabling quick turnaround of information.

Balance your checkbooks with ease.

Access your checkbooks online for up-to-the-minute views of your cash position.

Provide tax planning and preparation.

We'll put a strategic tax plan in place for you to help mitigate your tax burden. Our firm also stays consistently up-to-date on federal and state laws that impact your industry, your business model, and your tax obligations.

Process payroll.

You enter payroll online and we process it for you—returning paychecks, direct deposit remittances, and employees' stubs.

Create detailed statements and reports.

Because your data is collected online, we can offer you a current view of your practice's health throughout the year.

Free you to focus on what you do best.

When you consider the hours spent on time-consuming, complex accounting work, it makes economic sense to outsource your accounting so that you can focus on running and growing your practice.
